

Hot Lunch Program (Feeding in the classrooms)

When CCA resumes school in the school buildings, the Hot Lunch program will be ready to serve students. There will be, of course, operational adjustments to mitigate the concerns related to COVID-19. These are examples of the operational adjustments in the area of school meals.

During the day,

- food service staff will wear face coverings such as face masks and face shields
- all meals will be delivered to classrooms and served to students
- CCA will have hand sanitizers in the classrooms to use before meals
- no sharing tables or food sharing will be allowed during this time
- outside food (such as treats for birthdays, celebrations, etc.) will be very limited and managed on a case by case basis
